**MANUAL STATUS SURVEY**  
**Module M11 "DOS6800 SYSTEM SOFTWARE"**

This issue comprises following updates :

- U1.38631.0778 ( July 1978; complete revision for Release 3.2).

## **PREFACE**

The following software is supplied with the PTS6000 Terminal System:

- DOS6800 System Software
- TOSS System Software

This Manual describes the use of DOS6800 System Software (release 3.2).

The use of those parts of DOS6800 System Software designed specifically for CREDIT or Assembler program development are not described in this Manual. Information on these topics can be found in the Assembler PRM (M06) and in the CREDIT PRM (M04).

Information about TOSS System Software which is needed by programmers is included in the Assembler PRM and in the CREDIT PRM.
